Subject: FW: CFAC presentation to Montana West Economic Development
Attachments: CFAC Proposed NPL Listing of Anaconda Aluminum Co.pdf

Hi Terry -

This is in regard to the Anaconda Aluminum Co site in Montana.

We received this inquiry from a Senator Tester Field Director, Virginia Burns-Loranger. She provided a fact sheet created by the current site owners, a PRP, and is interested in our thoughts. We want to be responsive to the request, but since we're in the public comment period, we want to make sure our response doesn't have the perception that we're influencing public comment.

I have to imagine that we have had similar requests at other sites during the comment period. Do you know how we typically respond?

I've sent an email to Nancy Cohen and Rachel Bassler in OSWER to determine if they had contacts who could assist us in the response, but also want to check with you to see if you know of other similar inquiries?

Thanks Terry,
Rob

Subject: CFAC presentation to Montana West Economic Development

Tracy and Rob,

I have been forwarded a copy of a presentation made to the Montana West Economic Development Board of Directors asking them to not support a national priority listing for CFAC. Haley Beaudry and Steve Wright (CFAC employees) made the presentation.

I would appreciate your insight on their comments. At a recent meeting they organized called the Community Liaison Panel, Cheryl Driscoll, Glencore executive stated "CFAC is responsible for the cleanup and Glencore is here to help."
